

Discover the future of home security and convenience with the Woox Smart Video Doorbell + Chime. This innovative device combines a sleek design with state-of-the-art technology to keep you connected to your doorstep, no matter where you are. Enjoy peace of mind with Woox as it embarks on making your smart home dreams a reality.

- Three power supply options for continuous operation
- Seamless integration with Amazon Echo Show & Google Nest Hub
- Two-way audio feature for instant communication
- Advanced night vision capability
- Numerous storage solutions for secure footage

Three power supply options for continuous operation

The Woox Smart Video Doorbell + Chime offers unmatched flexibility with three distinct power supply options. It houses rechargeable 5200mAh type 18650 batteries for cord-free usage, ensuring long-lasting power and easy recharging via an included USB-C cable. Alternatively, the doorbell can be connected using the included 5V DC to AC adapter for direct power. The third option allows you to connect using your existing 8-24V doorbell wires with provided accessories, making installation seamless for every home.

Seamless integration with Amazon Echo Show & Google Nest Hub

Enhance your smart home ecosystem with Woox's seamless compatibility with Amazon Echo Show and Google Nest Hub. Stay updated with what's happening at your doorstep by asking Alexa or Google to display the live view. Utilize the two-way audio feature to interact with visitors even when you're away, ensuring you never miss a moment.

Two-way audio feature for instant communication

Stay connected with anyone at your doorstep, regardless of location, through Woox's built-in high-quality mic and speaker. Instantly receive notifications on your phone via the free Woox Home app whenever someone rings the doorbell. Communicate directly with visitors, be it directing a delivery person or greeting guests, all from the convenience of your phone.

Advanced night vision capability

Ensure clear visibility around the clock with the Woox Smart Video Doorbell + Chime's advanced night vision functionality. Infrared LEDs and sophisticated computer vision algorithms activate night vision when the environment is dim. With a broad field of view and a 5-meter infrared distance, you can confidently monitor your doorstep at any time of day or night.

Numerous storage solutions for secure footage

Woox provides three secure storage options for all your footage, ensuring compliance with GDPR. You can save videos directly on the device running the Woox Home app, use an SD card (up to 128GB) for local storage, or opt for our cloud service with various subscription plans. All footage is encrypted, ensuring it remains private and exclusively accessible.
