

Introducing the WOOX Zigbee Smart Wall Light Switch, your one-stop solution to smart lighting. This advanced, Zigbee-enabled switch transforms your regular lights into smart lights, giving you total control over lighting schedules, remote access, and even voice control. Create ambiance at your fingertips or set auto-switch modes for when you are away - the possibilities are endless.

- Essential Zigbee Hub Compatibility
- Voice Control Support
- Convenient Remote Access
- Personalized Scheduling
- Away Mode

Essential Zigbee Hub Compatibility

To maximize its smart functionalities, the WOOX Zigbee Smart Wall Light Switch requires a WOOX Zigbee Hub. This hub serves as the control center for all your WOOX smart devices, ensuring smooth operation and integrated control.

Voice Control Support

Experience the convenience of hands-free operation with WOOX Zigbee Smart Wall Light Switch's voice control feature, compatible with Amazon Alexa and Google Assistant. Whether you have an Echo, Echo Dot, or Google Home device (sold separately), control is just a voice command away.

Convenient Remote Access

No matter where you are, control your wall light switch using your tablet or smartphone with the free WOOX Home app. With this feature, turn your lights on or off with just a few taps on your device.

Personalized Scheduling

Automate your lighting routines with the smart scheduling feature. Program your wall light switch to turn your home appliances on or off as needed - a smart, power-saving solution for today's busy lifestyles.

Handy Away Mode

Maintain home security with the switch's Away Mode. This clever feature turns your devices on and off at various times, simulating occupancy and deterring potential intruders.
